EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Craig M. Bell on January 9, 2009.

The application has been amended as follows:

IN THE CLAIMS:

Claims 8-20 have been canceled without prejudice.

Claim 1 has been replaced to read as

"A method of treating a patient for sleep disorders selected from the group consisting of insomnia and sleep apnea comprising the oral or parenteral administration of a therapeutically effective amount of from about 10mg to about 300mg of 2-cyano-10-

(2-methyl-3-(methylamino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof."

Remarks

The above amendment places this case in condition for allowance.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious the claimed method of treating a patient for sleep disorder selected from the group consisting of insomnia and sleep apnea comprising the oral or parenteral administration of a therapeutically effective amount of from about 10mg to about 300mg of 2-cyano-10-(2-methyl-3-(methylamino)propyl)phenothiazine (I) or a pharmaceutically acceptable salt thereof.

The cited prior art, Singer et al. teaches cyamemazine which is structurally similar to the instant compound, 2-cyano-10-(2-methyl-3-(methylamino)propyl)phenothiazine (I), useful for the treatment of insomnia. However,

Applicants has discovered that the instant compound have unpredictably higher affinity over cyamemazine. Applicants have shown in their Table and the specification that the instant compound with one less methyl group will present such a difference in activity for 5HT1a, 5HT2c and M3 receptors providing a significantly better drug profile.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Communication

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JENNIFER M. KIM whose telephone number is (571)272-0628. The examiner can normally be reached on Monday through Friday 6:30 am to 3 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreenivasan Padmanabhan can be reached on 571-272-0629. The fax

phone number for the organization where this application or proceeding is assigned is 571-273-8300.
